ASCE-YMF will be hosting a private hardhat tour of the Carrie Furnaces, a National Historical Landmark. This tour will include the whole steel-making process, from the Ore Yard where raw materials were stored to Cast House where red hot molten metal spewed from the furnace. The famous “Deer Head,” which was crafted entirely from recycled materials, is also included on the tour.

TOUR: Saturday, June 30th at 1pm
COST: $20 (To be Paid before Tour)
LOCATION: Carrie Furnace Site

Please RSVP and make payment by June 26th.

To RSVP for this event please contact Angela Mayer at amayer@kuresources.com. Upon RSVPing she will send additional information and a waiver form. Note Carrie Furnace site is a heavily industrialized site; please dress according.
