PRESIDENT-ELECT CANDIDATE

Louis Gualtieri, PE
Candidate for President-Elect
During the 2015/2016 Year
ASCE Pittsburgh - YMF

BIOGRAPHY:
Louis graduated from the University of Pittsburgh in 2008. He was very active within the Pittsburgh section as a student, where he served in numerous roles in the student chapter including president. He helped coordinate with Pitt students at the ASCE national conference held in Pittsburgh. After graduation he continued to be involved, and eventually became the sports chair where his responsibilities were to manage the YMF Softball team and plan the annual Pirates tailgate. Then he transitioned into his current position as dodgeball committee chair, where he plans and runs the annual dodgeball tournament. He also helps coordinate an outreach event annually at his alma mater Central Catholic High School which is in its 4th year.

Louis is a structures engineer with HDR, where he just started working at in January. He had previously worked at CDR Maguire prior to that. At HDR he has been designing some precast box culverts for District 10 and recently was assigned to the P3 rapid bridge project. Some other notable projects he worked previously on at CDR Maguire include several bridges as part of the Beaver River Interchange project for the Pennsylvania Turnpike, Sound Barrier/Retaining Walls for I-95, and several other small bridges in Western Pennsylvania. He just recently received his PE license.

STATEMENT OF PURPOSE:
As Vice President and eventually President, Louis hopes to continue to help the YMF with planning and executing many successful YMF events. His primary goal will include trying to better retain outgoing students from the local universities as active YMF members. Hopefully by better fostering individual relationships with the students and growing on our already strong relationships with the local universities can we accomplish this objective.

As the former sports chair and current dodgeball chair, Louis will try to come up with new, fun ways of trying to recruit new membership, in addition to the activities the YMF already provides. He would also like to continue to build outreach opportunities in local high schools, similar to his experience at speaking and interacting at Central Catholic. He would also like to see our technical and leadership committees grow and continue to provide the YMF presentations that will help them grow and succeed.

As vice president, Louis will remain involved in the Dodgeball committee and hopefully help that to continue to succeed.

Thank you for your consideration.
Nicholle M. Piper, EIT
Candidate for Secretary
During the 2015/2016 Year
ASCE Pittsburgh - YMF

**BIOGRAPHY:**
Ms. Piper is a site/civil staff engineer at Langan Engineering & Environmental Services, Inc. Her current focus includes retail development projects for regional and national developers, large- and small-scale residential, commercial, and industrial development projects in the public and the private sector, transportation design, sustainable site design, and site development permitting.

Nicholle graduated from the University of Pittsburgh in 2011 with a Bachelor of Science in Civil Engineering (structural concentration). In 2010-2011, Nicholle served as treasurer of the University of Pittsburgh ASCE Student Chapter, where she had the opportunity to attend the ASCE national conference. Additionally, she contributed to the steel bridge team as a team member in 2009-2010 and the design captain during the 2010-2011 season.

Nicholle is also active in the ACE Mentor Program (2012-present) and Big Brothers Big Sisters of Greater Pittsburgh (2014-present). She is passionate about engineering outreach, which has led to involvement in the Future City Competition (Judge 2014, Scorekeeper 2015), the University of Pittsburgh Freshman Conference (Conference Session Chair 2013-present), and Young Professional Women in Energy (Mentorship Chair 2013-14).

**STATEMENT OF PURPOSE:**
The past year as YMF outreach co-chair has reinvigorated my enthusiasm for ASCE. I plan to continue my involvement in YMF, and if elected, would welcome the opportunity to take on a greater role in assisting with communicating and executing YMF events.

Thank you in advance for your consideration!
JEFF ARGYROS

Candidate for Treasurer
During the 2015/2016 Year
ASCE Pittsburgh - YMF

Jeff is the current Employment Committee chair of the ASCE Pittsburgh YMF and is excited to continue his involvement with the YMF in the position of Treasurer for the 2015-2016 year.

BIO:

Jeff graduated from the University of Pittsburgh in April 2012. Since then, he has become very active in the Pittsburgh ASCE YMF section. In the fall of 2012, he assumed the role of the Employment Committee chair, a position which he still holds. In the past couple years, he has assisted the Fundraising committee, specifically in assembling the first annual Pittsburgh ASCE YMF 50/50 March Madness Pool and the first annual ASCE YMF Super Bowl Squares Pool. He looks forward to running the second annual 50/50 March Madness Pool this upcoming month.

Jeff is a water resources engineer with ARCADIS U.S., where he has worked since June 2013. He had previously worked for GAI Consultants and is a registered EIT.

STATEMENT OF PURPOSE:

As Treasurer, Jeff will work hard to balance the Pittsburgh ASCE YMF check book and stay current with the balance in the account. His primary goal will be to continue the big money-making events, such as the Pens raffle, as well as introduce new events, such as a fantasy football league for members where part of the buy-in would go towards supporting the ASCE YMF. He hopes to have continued success with the March Madness pool and Super Bowl Square pool.

Additionally, Jeff has a lot of experience with electronically transferring money via PayPal, Venmo, Google, and Popmoney, which are safe ways to exchange money over the Internet with no or limited fees. This could save some hassle in collecting money for fundraising events over the next year.

Thank you for your consideration.
TREASURER CANDIDATE

GREG HOLBROOK

Candidate for Treasurer
During the 2015/2016 Year
ASCE Pittsburgh - YMF

Greg has been involved in the YMF for the past two years as the Sports Committee chair and is excited to further enhance his involvement with the YMF in the role of Treasurer for the 2015-2016 year.

BIOGRAPHY:
Greg graduated from Virginia Tech in May 2013 and moved to Pittsburgh soon thereafter. He has since become heavily involved in the YMF section. In the fall of 2013 he took over the position of the Sports Committee Chair, which he stills holds. He helps out with other ASCE outreach events such as the ACE mentoring sessions and ASCE demonstration booths at the Carnegie Science Center E-week event. Greg also holds the position of treasurer and president-elect in Pittsburgh’s ASCE SEI chapter.

Greg is a structural engineer at CDM Smith and has been with the company since June 2013. He is also a registered E.I.T.

STATEMENT OF PURPOSE:
As treasurer, I will keep the finances in order for the Pittsburgh ASCE YMF and will stay on track of the transfer of money for the organization in a timely manner. In my time as treasurer of the Pittsburgh SEI chapter I have already dealt with and understood the requirements of the treasurer position, and the complexities of balancing the books after large events when there is a large transfer of cash flow. Also, one of the main events run by the YMF Sports Committee chair is the ASCE YMF Pirates Tailgate which deals with a large transfer of money, determining pricing of tickets, and organizing the event and all the necessities of the tailgate.

Additionally, I will work to expand potential fundraising events as we head into a year in which we will be hosting the ERYMC Conference. I will also take the opportunity to provide input and feedback on events run by Committee Chairs to help the YMF to continue to host valuable events in which we break even.

Thank you for your consideration.
