

2020
CIVIL ENGINEER
OF THE YEAR

SEBASTIAN LOBO-GUERRERO, P.E.

"Sebastian is an extremely enthusiastic [geotechnical] engineer...His excitement in his work is evident and he is happy to share that with the world. Sebastian's passion for civil engineering is apparent, contagious, and influences others to seek the same fulfillment from their own work."

"In this socially distanced period, Sebastian leveraged his robust and widespread network to organize thirteen webinars for [multiple organizations] since the beginning of April"

Shirley Tang, PE
Chair Geo-Institute
